XL Inline Conversion Kit

The "SNEED-PACK XL Inline Conversion Kit" is designed to allow for an easy and quick transition from a handheld printer to an inline printer. If you have any questions after reading this guide, please reach out to us at (833) 926-3464 Ext.2 to speak with one of our dedicated technical professionals.
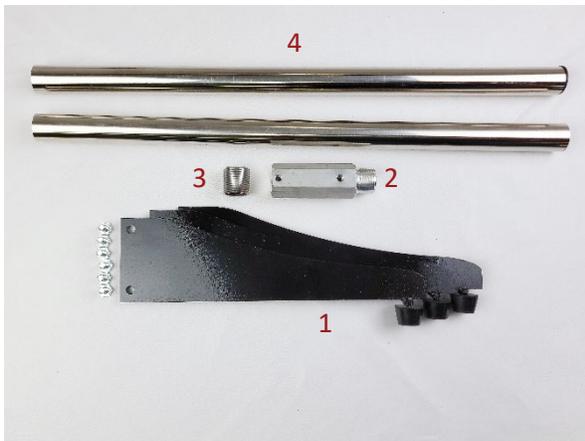

Components

A. **Stand Base** – Includes (3) legs, (1) hexagonal base, (1) threaded bar junction, and (2) threaded mounting bars.
B. **Peripheral Mounting Kit** – Includes (1) sensor mount, (1) printer mount, (1) encoder mount, and (3) mounting clamps.
C. **Product Sensor**
D. **Encoder Kit** – Includes an equipment mount for a permanent mounting solution.
E. **Printer Mount** – attaches to the printer and used with the mounting arm from parts B to mount the printer to the stand
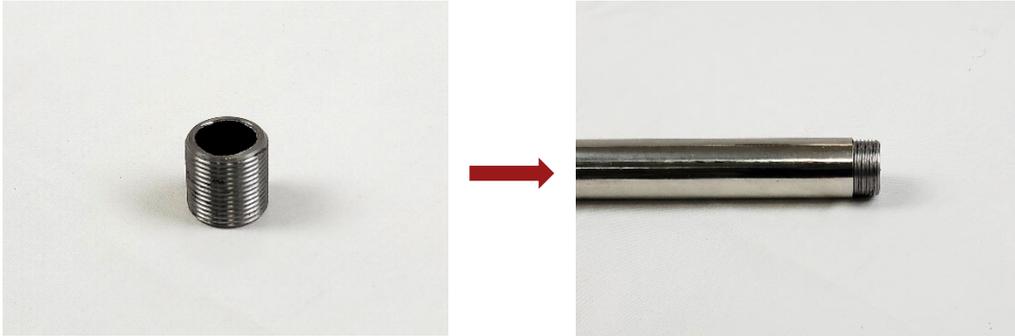

Assembly

(A) The Base

1. Attach the legs (1) to the hexagonal Base (2)

SNEED
best by: Coding Solutions, Inc.

2. Use the threaded junction piece (3) and screw it into one end of the mounting bar.

3. Screw the two mounting bars (4) together and attach them to the base being careful not to cross-thread them.

3

best by: SNEED Coding Solutions, Inc.

(B) The Peripheral Mounting Kit

1. Encoder mount
2. Printer mount
3. Sensor mount
4. Mounting brackets

Instructions:

1. Slide the mounting brackets (4) onto the stand.
2. Install the encoder mount (1) into the lowest bracket.
3. Install the sensor mount (3) into the second bracket.
4. Install the print mount (2) in the top bracket.

The Sensor

There are two nuts on the sensor, remove one and secure the sensor on the mounting arm.

The Encoder

Using the rectangular bracket included with the encoder attach it to the encoder mounting arm.
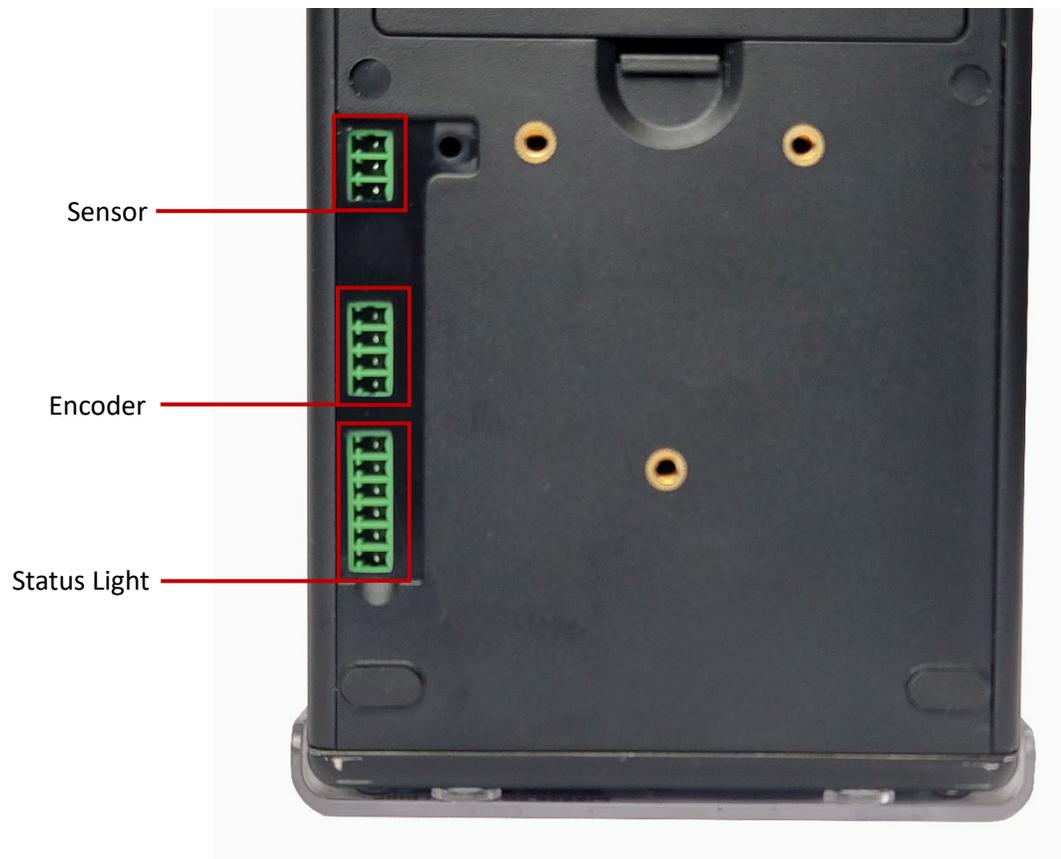

The Printer

1. Attach the printer mount to the printer using the three thumb screws included.
2. The printer mount fits into the printer mounting arm. Secure it with the tension knob.
